A Memorial To Be Treasured

THIS record is intended as a memorial which will place in the possession of the church an authentic history of those who have helped to guide its destiny. To be of greatest use the information recorded should be accurate, the tributes honest, and the preservation of the record book assured.

In instituting this record we recommend that the appeal be made as widely as possible. Give every family a chance to list names which should be included. Search the church records. Where any have died without kin ask some organization or individual to sponsor the name and see that it is placed in the memorial book. The letters, envelopes and other literature which you receive with this system should be used in making the appeal. It has been tested to that end.

Weeks in the foyer of the church for observation. Then it should be placed with the permanent records of the organization. *Once each year, at a special service it can be opened for new entries. Many churches already have an All Soul's Communion once a year for paying honor to those who have died during the year. This book fits in well with the purpose of that service.

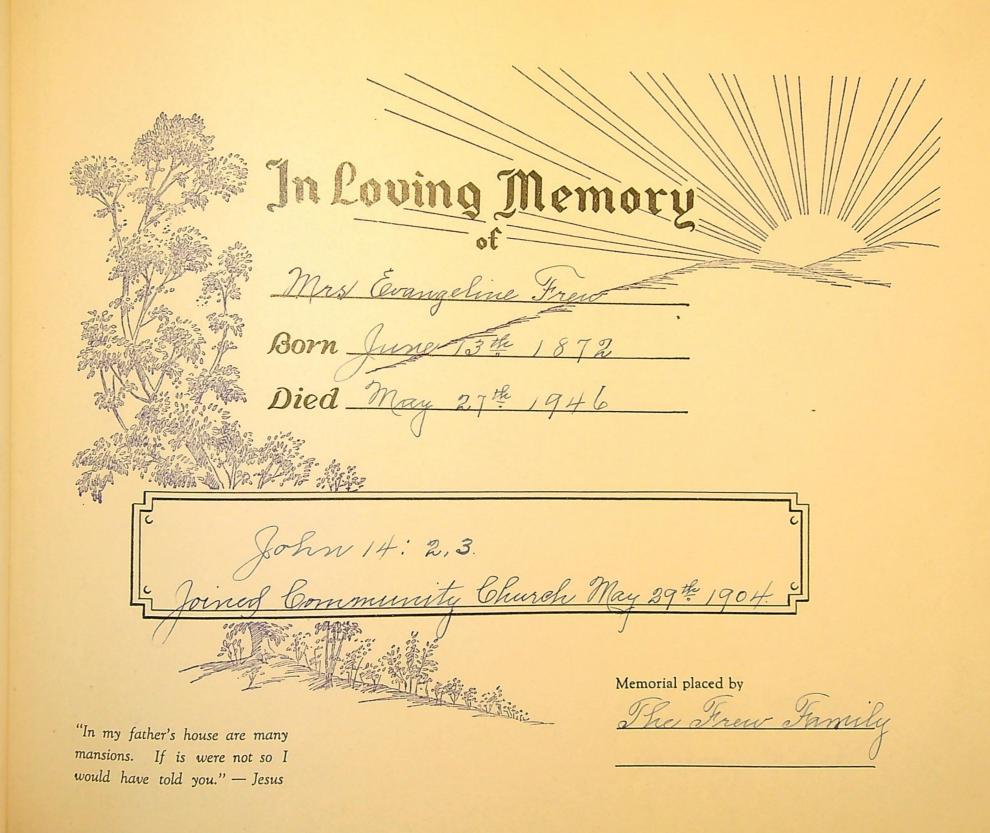

WITH the passing of the years it will grow in sentiment and become one of the most prized possessions of your church.

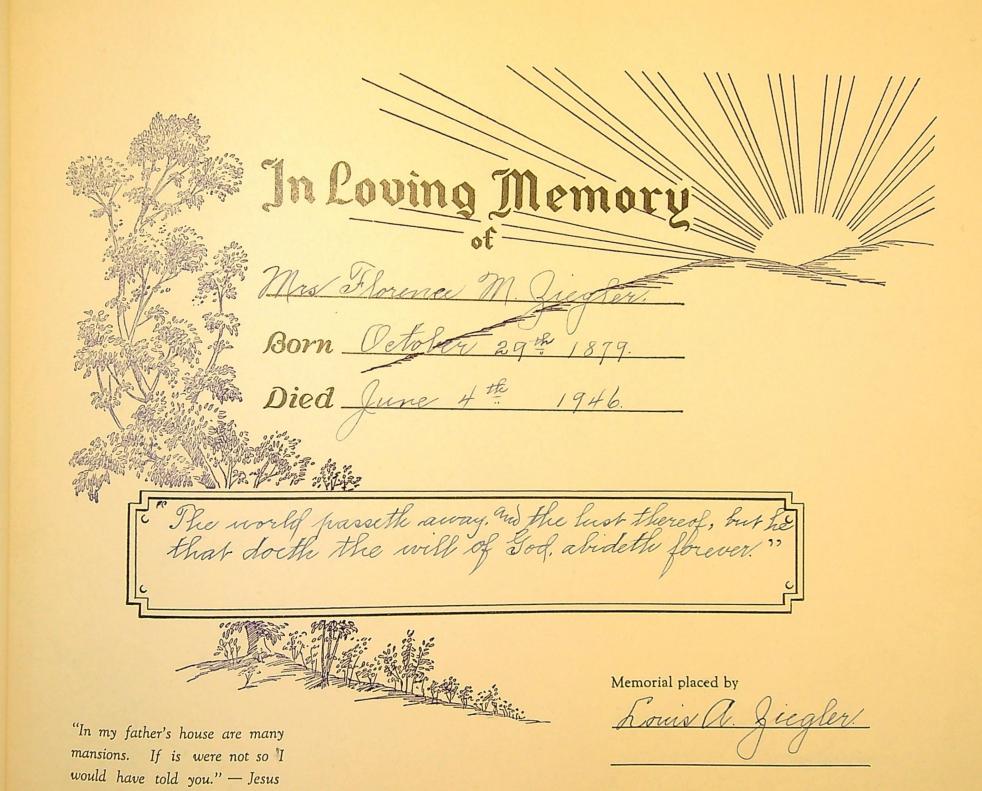

"Blessed are the dead which die in the Lord."
